

Anwar Kornipalli

Frontend Developer

Email: anwarkornipalli@gmail.com, Phone: 9618694485, [LinkedIn](#), [GitHub](#)

Professional Summary

Results-driven Frontend Developer with 3.9 years of experience building fast, accessible, and scalable web applications using React.js, TypeScript, and modern tooling. Proven track record of reducing load times by 25%, improving test coverage by 90%, and accelerating delivery with reusable component systems. Adept at translating UI/UX designs into responsive interfaces that drive engagement and performance.

Technical Skills

- **Frontend:** React.js, Redux, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS,
- **Development Tools:** Vite, Babel, Vercel, Jira
- **Testing:** Vitest, React Testing Library, Jest, Postman
- **Version Control:** Git, GitHub
- **Other Skills:** Responsive Design, RESTful APIs, Agile/Scrum, Cross-browser Compatibility, Strong problem-solving abilities, and effective communication skills in collaborative environments.

Professional Experience

Cognizant Technology Solutions – Bangalore

May 31, 2022 – Present

Medtronic - Frontend Developer

- Engineered scalable, maintainable UI components using React.js reducing development time by 30% across multiple feature rollouts.
- Increased page performance by 25% through lazy loading and DOM optimization.
- Boosted test coverage from 40% to 90% using Vitest and React Testing Library.
- Collaborated with backend teams to integrate RESTful APIs, reducing frontend bugs by 35%.
- Streamlined styling with Tailwind CSS, cutting CSS maintenance time by 50%.
- Contributed to Agile sprints, participated in estimations, code reviews, and sprint demos.

Travelers Insurance - Frontend Developer

- Optimized performance across 15 enterprise applications, improving load and render efficiency by 20% through strategic refactoring and render optimization.
- Reduced bundle size by 15% through code splitting, tree-shaking, and removal of unused legacy code..

- Decreased UI-related defects by 25% by improving component structure, adding validations, and strengthening integration consistency across applications.
- Enhanced reliability by improving error handling and fixing recurring production defects, resulting in smoother deployments and reduced rework.
- Developed new features end-to-end while improving responsiveness, accessibility, and cross-application UI consistency.
- Contributed to standardized reusable UI components, enabling faster development cycles across the application ecosystem.

Key Projects

- **Swiggy Clone:** Developed a comprehensive food delivery application resembling Swiggy using React.js, Redux, and Tailwind CSS. Utilized the Swiggy live API for dynamic data fetching, providing users with real-time restaurant and menu updates. Employed Redux for state management to handle online cart functionality, allowing users to add, remove, and update items seamlessly. Implemented responsive UI components with Tailwind CSS, ensuring an attractive and user-friendly interface across various devices. Integrated user authentication and order tracking features to enhance the overall user experience.
- **Taskify (Todo List Application):** Developed a task management application using React.js, TypeScript, and Tailwind CSS. Implemented features for task creation, editing, deletion, and completion toggles. Managed state with React Hooks for efficient rendering and user interactions. Ensured form validation and smooth user experience, employing Tailwind CSS for a clean, responsive design.

Education & Certifications

- **Bachelor of Technology (B.Tech) in Aeronautical Engineering** Hindustan University – 2021
- React.js Developer Certification
- JavaScript Certification

Awards & Recognition

- **Frontline Leadership Badge – Cognizant Technology Solutions:** Awarded for demonstrating ownership, proactive problem-solving, and leadership qualities while delivering high-impact work across multiple frontend applications. Recognized for contributing to cross-team collaboration, mentoring junior developers, and consistently exceeding delivery expectations.
